Because we are not considered essential workers, there may be times (such as Covid visiting protocols being reinstated in an assisted living complex) that we are not allowed to access clients, thereby reducing available work hours. Relationally Yours is committed to making every effort to mitigate these situations as much as possible. Please initial that you understand this paragraph_____

While we cannot guarantee this, to the best of our ability, we will try to have employees work in the areas generally nearest their homes. In addition to the area you currently live in, is there another area of greater Madison County you frequent that you might like to have clients in that area? (This does not affect your hire-ability; gas is expensive y'all!).
